

TANKMASTER

The patented Tankmaster was originally designed for small tanks with a 3-inch schedule 40 or schedule 80 opening. The unit provides a thorough, reliable, high-impact 360-degree cleaning pattern at low to medium pressures and volumes.

- Hydraulically driven by the cleaning solution.
- Ideal for cleaning small tanks, vats, totes, IBCs and bulk transport clean-outs with stubborn soils.
- A sealed gearbox design, and 45 tooth external gears that provide a thorough 360-degree cleaning pattern every 45 revolutions.
- Long nozzles may also be added to the T-5 (double) and T-6 (triple) units, providing additional reach and impingement cleaning when needed.

SPECS

- Minimum Opening: 3" / 76 mm
- PSI / Bar: 100-600 / 3.4 - 41.4
- GPM / LPM: 12-40 / 45-151
- Cleaning Radius: 15'
- Pipe Connections: 1" Female NPT
- Tank Opening Size: 3"
- Length: 12.44"
- Weight: 8.2 lbs.
